

The University financial policy states that all students must have a zero (\$0) balance on their student account. An unpaid balance may not be carried over to the next semester. All students must have a minimum of 80 percent of the total charges covered by financial aid/or payments. The remaining 20 percent may be placed on a monthly payment plan with ***Tuition Management Systems prior to the start of the semester.**

Students who have not confirmed a payment agreement must have the balance paid in full on or before the semester due date. Students not in compliance will not be authorized to attend classes, reside in University housing, or purchase a meal plan.

80/20 Policy Example

Please review an example of the 80/20 calculation below:
 (Please note: These are estimated figures and are subject to change)

<u>Total Current Charges</u>	
\$13,587.01	
(80%) <u> </u> x .80	<u> </u> x .20 (20%)
\$10,869.61	\$2,717.40 (Payment Plan via TMS)
- <u>8,600.00</u> (fin. aid/pmt.)	
\$2,269.61 (Must be paid)	

The remaining **80%** of \$2269.61 must be paid **AND** the **20%** amount of \$2,717.40 must be placed on a payment plan.

Also, if a student/family wishes to pay their entire balance (100%), a payment plan is not necessary.
