

### **Assessment Plan for 2016-2017 Academic Year**

- Assess all WI courses offered in spring of 2017 per department to see how they adhere to the WI course recommendations and criteria. Implement the action plan to ensure 80% WI courses are or become compliant by 2016-2017.
- Review the WPP portfolio assessment process for four departments: Nursing, Business and Entrepreneurial Studies, History, Political Science and Philosophy, and Sociology and Criminal Justice. The chosen department chairs and respective deans will receive official correspondence that the department's process of portfolio assessment will be assessed and evaluated. The respective department will have to provide the students' WPP portfolios that have been assessed in 2016-2017.
