Phone Update

Campus continues to experience off-campus, outbound dialing failures for those on the NEC phone system following major hardware issues last week with both our service provider and the front end of our phone system. We are working to correct this issue and should have it resolved within a few days. Most of campus has already been moved to Cisco and should be functioning properly as of Friday evening. For Cisco users, with the recent moves you should now see inbound, off-campus caller-ID information. We will keep you abreast of the progress of this situation.
